EDUCATION

Virginia Tech **Blacksburg, Virginia**
B.S in Computer Science *May 2027*

- **Related Coursework:** Problem Solving and Programming, Object-Oriented Programming, Data Structures and Algorithms, Computer Systems, Discrete Structures, Computer Organization 1 & 2, Software Design & Data Structures.

EXPERIENCE

Target **Christiansburg, Virginia**
Guest Advocate *April 2025 - Present*

- Assisted **50+ guests per shift** with purchases, returns, exchanges, and service questions while delivering strong customer service in a fast-paced retail environment.
- Processed guest transactions and supported loyalty program enrollments while helping maintain efficient front-end operations and reduced waiting times during peak hours.
- Prepared and delivered **20+ Drive Up and Order Pick Up orders per shift** with **95%+ order accuracy**, supporting timely fulfillment and a smooth guest experience.

PROJECTS

AI Medical App **Blacksburg, Virginia**
Software Engineering Project Member *Jan 2026 – May 2026*

- Developed an AI-powered pediatric emergency support app with **5 core features** including sepsis detection, **PALS** cardiac arrest guidance, medication dosing, voice prompts, and role-specific dashboards.
- Help design and test protocol workflows using **Phoenix criteria** and pediatric emergency guidelines, contributing to **36+ validation checks** across usability, accuracy, and clinical relevance.
- Built and refined clinical decision-support features using **React, JavaScript, HTML/CSS, FastAPI, OpenAI, PyTorch, Transformers, NumPy, and Pydantic** while collaborating with Egyptian students in an embedded study abroad project.

Portfolio Website
Personal Project

- Developed a personal portfolio website using **HTML, CSS, and JavaScript** to highlight projects, technical skills, and accomplishments.
- Implemented responsive web design principles to ensure a consistent user experience across multiple screen sizes and devices.
- Enhanced site functionality with interactive JavaScript features, including dynamic content behavior, form validation, and smooth visual transitions.

Product Website
Personal Project

- Developed a product showcase website using **HTML, CSS, and JavaScript** with a modern and user-friendly interface.
- Applied responsive web design principles to ensure consistent experience across desktops, tablets, and mobile devices.
- Improved site layout and navigation to present product details clearly and enhance overall usability.

Awards

Virginia Tech **Blacksburg, Virginia**
Dean's List *Fall 2025*

- Awarded for earning a 3.4+ semester GPA while completing at least 12 graded credit hours
- Recognized for strong academic performance and consistent achievement during the semester
- Selected for inclusion on the Dean's List based on semester academic excellence
